

Financial Software Architect

Full-time Employee (m/f)

About us

risklab GmbH is the expert for Strategic Investment Solutions of Allianz Global Investors AG, which is the global Asset Manager of Allianz.

risklab provides its services to renowned national and international institutional investors such as Pension Funds, Corporate Clients, Family Offices, Wealth Managers and Mutual Funds.

We create innovative and sustainable investment solutions together with our clients in a true partnership approach.

Opportunity

We are looking for a full-time Financial Software Architect to join our Financial Software & Technologies team. In the focus of this career opportunity will be the development of our quantitative software suite which supports our investment solutions.

The location is Munich, Germany.

Your Qualification

Ideally, you hold a degree in a computational subject (e.g. computer science, computational finance). You have strong C++, C# or Java development experience and are familiar with the design of large object oriented software programs. Hands-on skills in Excel, Matlab, Silverlight, CUDA technologies or cloud computing are not required, but are a plus.

You should have a good understanding of financial markets and knowledge about the broad spectrum of financial instruments.

Further, you are an open-minded team player, flexible, self-reliant, and eager to learn more about quantitative finance. Good verbal and written skills in English and German are required.

What we Offer

You will work in a fast paced team. Your tasks are focused on the development of our quantitative IT suite which supports risklab's investment and risk strategies, portfolio analytics, pricing platform, and economic scenario generation. For example, you may be engaged in speeding up financial algorithms by deploying high performance computing techniques or support the team to develop and maintain a graphical front-end for portfolio strategies. Further, you get the opportunity to work in a variety of customer projects while gaining strong insights into financial analytics and risk management techniques.

Contact

If you think you have what it takes to join our fast-paced organization, please send your application to tanja.cichos@risklab.com. We look forward to hearing from you.
